

About the Online Programme

It is witnessed that the mode of teaching learning is changing drastically. A variety of factors is responsible for this change which led to several challenges in the society. The current crisis of Covid-19 Pandemic has in fact aggravated these challenges. The only better option left is online teaching learning today. To make this online teaching learning more effective, training of the teacher is a must. Taking this view into mind, the two days online Professional Development Programme for the faculty is thought of. The main purpose of the programme is to provide a wonderful opportunity to the university/college teachers in order to familiarize the ideas and sharpen the skills and methods of e-content development for online teaching and learning.
