## CCMG, Jamia Millia Islamia Organises Panel Discussion on

### Interactive Technologies, Access & Democracy

### at Summer School on "ICT 4 Democracy" Asia Pacific Institute of Management, New Delhi

#### Abstract

Digitisation process is currently sweeping the mode of governance in Indian society. Starting from digitizing land records to governance through network technologies is the order of the day. While the Democratic institutions are under pressure to open up for effective participation through online interactions with the public with informations, however, there is a lack of fit between policies pertaining to digitization and effective functioning of democratic institutions in Indian Society. The present workshop will address various issues pertaining the issues related to digitization and Democracy in India.
