Setting and Infrastructure

Question	Answer
1.1()	Type of higher education institution [1] Comprehensive
1.2()	Climate [6] Humid Subtropical
1.3()	Number of campus site 1
1.4()	Campus setting [3] Urban
1.5()	Total campus area (m ²) 967360
1.6()	Total campus ground floor area of buildings (m ²) 115585
1.7()	Total campus buildings area (m ²) 326880
1.8(SI.1)	The ratio of open space to total area. [3] > 80 - 90%
1.9(SI.2)	Total area on campus covered in forest vegetation (please provide total area in square meters) [5] > 35%: 967360 m²
1.10(SI.3)	Total area on campus covered in planted vegetation (please provide total area in square meters) [5] > 40%: 647497 m²
1.11(SI.4)	Total area on campus for water absorption besides forest and planted vegetation (please provide total area in square meters) [5] > 30%: 628785 m²
1.12()	Total number of regular students (part time and full time) 16876
1.13()	Total number of online students (part time and full time) 2931
1.14()	Total number of academic and administrative staff 2431
1.15(SI.5)	The total open space area divided by total campus population. [5] > 70 m² / person
1.16()	Total university's budget (in US Dollars) 69601437
1.17()	University's budget for sustainability effort (in US Dollars) 28174661
1.18(SI.6)	Percentage of University's budget for sustainability effort [5] > 15%
1.19(SI.7)	Percentage of operation and maintenance activities of building in one year period [2] > 25 - 50%
1.20(SI.8)	Campus facilities for disable and maternity care [5] Facilities exist in all buildings and are fully operated
1.21(SI.9)	Security and safety facilities [5] Security infrastructure is available and fully functions and security responding time for accidents, crime, fire, and natural disasters is less than 10

		minutes
1.22(SI.10)	Health infrastructure facilities for students and academic and administrative staff wellbeing	[5] Health infrastructure available (first aid, emergency room, clinic, hospital and certified personnel), system and accessible for public
1.23(SI.11)	Conservation: plant (flora), animal (fauna), and wildlife, genetic resources for food and agriculture secured in either medium or long-term conservation facilities	[5] Conservation program fully implemented

Energy and Climate Change

Question		Answer
2.1(EC.1)	Energy efficient appliances usage	[5] > 75%
2.2()	Total campus smart building area (m ²)	248713
2.3(EC.2)	Smart Building implementation (percentage of the total floor area of smart building to the total all floors building area (smart and non-smart buildings area).	[5] > 75%
2.4(EC.3)	Number of renewable energy sources in campus (solar power, bio diesel, wind power, etc)	[2] 1 source
2.5()	Renewable energy sources and their amount of the energy produced (in kilowatt-hour)	[4] Solar Power: 2763626 kWh
2.6()	Electricity usage per year (in kilo watt hour)	7590888
2.7(EC.4)	The total electricity usage divided by total campus population (kWh per person).	[1] >=2424 kWh
2.8(EC.5)	The ratio of renewable energy production divided by total energy usage per year	[5] > 25%
2.9(EC.6)	Elements of green building implementation as reflected in all construction and renovation policies	[4] 3 elements
2.10(EC.7)	Greenhouse gas emission reduction program	[5] Program(s) aims to reduce all three scopes emissions (Scope 1, 2 and 3)
2.11()	Please provide the total carbon footprint (CO ₂ emission in the last 12 months, in metric tons)	6448
2.12(EC.8)	The total carbon footprint divided by total campus population (metric tons per person).	[4] > 0.10 - 0.42 metric ton
2.13(EC.9)	The number of innovative program(s) in Energy and Climate Change	[5] More than 3 programs
2.14(EC.10)	Impactful university program(s) on climate change	[5] Provide training and educational materials for surrounding communities, at national level, and at regional and international level

Waste

Question		Answer
3.1(W.S.1)	3R (Reduce, Reuse, Recycle) program for university's waste	[5] Extensive (> 75% waste)
3.2(W.S.2)	Program to reduce the use of paper and plastic on campus	[4] 3 programs
3.3()	Total volume organic waste produced (ton)	9
3.4()	Total volume organic waste treated (tons)	9
3.5(W.S.3)	Organic waste treatment	[5] Extensive (> 75% treated)
3.6()	Total volume inorganic waste produced	57

	(tons)	
3.7()	Total volume inorganic waste treated (tons)	57
3.8(W.S.4)	Inorganic waste treatment	[5] Extensive (> 75% treated)
3.9()	Total volume toxic waste produced (tons)	1.0551
3.10()	Total volume toxic waste treated (tons)	1.0551
3.11(W.S.5)	Toxic waste treatment	[4] Partial (> 50% - 75% of treated)
3.12(W.S.6)	Sewage disposal	[2] Treated with preliminary treatment*

Water

Question		Answer
4.1(WR.1)	Water conservation program and implementation	[5] > 50% water conserved
4.2(WR.2)	Water recycling program implementation	[3] 1 - 25% Implemented at early stage (e.g. measurement of waste water)
4.3(WR.3)	Water efficient appliance usage	[5] > 50% of water efficient appliances installed
4.4(WR.4)	Treated water consumed	[2] 1% - 25% treated water consumed
4.5(WR.5)	Water pollution control in campus area	[5] Policy and programs for water pollution control are fully implemented and monitored regularly

Transportation

Question		Answer
5.1()	Number of cars actively used and managed by University	25
5.2()	Number of cars entering the university daily	386
5.3()	Number of motorcycles entering the university daily	1486
5.4(TR.1)	The total number of vehicles (cars and motorcycles) divided by total campus population.	[4] > 0.045 - 0.125
5.5(TR.2)	Shuttle service	[4] Shuttle service is provided by university, regular, and free
5.6()	Number of shuttles operated in your university	17
5.7()	Average number of passengers of each shuttle	4
5.8()	Total trips of shuttle services each day	65
5.9(TR.3)	Zero Emission Vehicles (ZEV) policy on campus	[3] Zero Emission Vehicles are available, but not provided by university
5.10()	Average number of Zero Emission Vehicles (e.g. bicycles, cano, snowboard, electric car, etc.) on campus per day	560
5.11(TR.4)	The total number of Zero Emission Vehicles (ZEV) divided by total campus population.	[5] > 0.02
5.12()	Total ground parking area (m ²)	64483
5.13(TR.5)	Ratio of parking area to total campus area. Formula: ((5.12/1.5) x 100%)	[3] > 4 - 7%
5.14(TR.6)	Transportation program designed to limit or decrease the parking area on campus for the last 3 years (from 2020 to 2022)	[5] Program resulting in more than 30% decrease in parking area or parking area reduction has reaches its limit.
5.15(TR.7)	Number of transportation initiatives to decrease private vehicles on campus (e.g. car sharing, charging high parking fees, metro / tram / bus services and etc)	[4] 3 initiatives

5.16(TR.8)	Pedestrian path on campus	[5] Pedestrian paths are available, designed for safety, convenience, and in some parts provided with disabled-friendly features
5.17()	Approximate daily travel distance of a vehicle inside campus only (in Kilometers)	1
Education and Research		
Question		Answer
6.1()	Number of courses/subjects related to sustainability offered	259
6.2()	Total number of courses/subjects offered	270
6.3(ED.1)	The ratio of sustainability courses to total courses/subjects	[5] > 20%
6.4()	Total research funds dedicated to sustainability research (in US Dollars) (average per annum over the last 3 years).	763863
6.5()	Total research funds (in US Dollars) (average per annum over the last 3 years).	1848713
6.6(ED.2)	The ratio of sustainability research funding to total research funding	[5] > 40%
6.7(ED.3)	Number of scholarly publications on sustainability published. (average annually for the past 3 years)	[5] > 300
6.8(ED.4)	Number of events related to sustainability. (average annually for the past 3 years)	[5] > 47
6.9(ED5)	Number of activities organized by student organizations related to sustainability per year	[5] > 10
6.10(ED.6)	University-run sustainability website	[5] Website is available, accessible, and updated regularly
6.11()	Sustainability website address (URL) if available	https://jmi.ac.in/ADMINISTRATION/IQAC/Policies/Climate-Action
6.12(ED.7)	Sustainability report	[5] Sustainability report is published annually
6.13()	Sustainability report link address (URL) if available	https://www.jmi.ac.in/BULLETIN-BOARD/Events/Latest-Events
6.14(ED.8)	Number of cultural activities on campus	[5] More than 3 events per year
6.15(ED9)	Number of university program(s) with international collaborations	[5] More than 3 Programs
6.16(ED.10)	Number of sustainability community services project organised and/or involving students	[5] More than 3 Projects
6.17(ED.11)	Number of sustainability-related startups	[5] > 15 startups

[1.3] Number of Campus Sites

Faculty of Social Sciences
Jamia Millia Islamia
(Gulistan-e-Ghalib)

Administrative Block
Jamia Milli Islamia

Faculty of Humanities & Languages
(Mohibul Hasan House)

Description:

Jamia Millia Islamia was born in 1920 in response to the call given by Father of the Nation, Mahatma Gandhi to boycott colonial regime and its institutions. The contributions of its founding fathers and teachers in the freedom struggle are well recorded. Jamia continues to fulfill the vision of serving the nation as encapsulated in its vision “Strive to foster the goals of building a secular and modern system of integrated education for sustainable development of society and better future for all”. Jamia holds the torch of illumination, striving for excellence in teaching, research and development, fostering innovation and playing a key role in nation building. Several of Jamia’s notable alumni, who have made a mark for themselves in various fields, bear testimony to this pursuit for excellence.

Jamia was declared a Central University in 1988. It continues to offer progressive education and instill nationalist ideals following its 100-year old philosophy of philanthropy, humanitarianism and social consciousness. Famous as Ustadon ka Madrassa in its early years, today Jamia has become an ensemble of a multilayered educational system covering all aspects of education from primary to doctorate studies. Jamia is one of the fastest growing University with 9 faculties, 39 departments, 29 centres of teaching-learning and research. Jamia attracts brightest minds from across the country and abroad. It has about 21,000 students. Over 270 programmes offered by university are approved by Academic Council and Executive Council, out of which 201 programmes are considered for NAAC. B.Tech. programmes are NBA accredited. Jamia is the only institution having collaborations with all the wings of Defence Services (IAF, NAVY, Army, Coast Guard) for academic mobility of their personnel.

Jamia is ranked 6th amongst universities in NIRF ranking. Faculty of Law and Architecture are amongst top ten; Engineering occupies 33th rank; Management is at 36th rank. In NIRF ranking. Times Higher Education has ranked Jamia at 601-800, QS at 751-800 and RUR at 438 in World university Ranking. Centre for Culture, Media and Governance is granted CPEPA by UGC and AJK-MCRC is ranked amongst the top media institutions. The university has h-Index of 129 (SCOPUS).

Jamia is located in the vicinity of dense green belts. The Horticulture Department of the University takes care of landscaping and maintaining large green spaces on campus. The University has a rich collection of flora with large trees lining across campus roads. A flower show is organised annually by Horticulture Centre to showcase commitment towards green practices. Tree plantation drives are regularly conducted, which contribute to a continual increase in green cover.

Jamia has initiated several measures towards environmental protection and to foster a sense of environmental care. A few initiatives implemented on campus during the assessment period include Bio-Waste management, Use of Solar Energy, Rain Water Harvesting, and developing greenery across the Campus.

University campus is spread over an area of 239 acres with a split campus. While increasing the programs or student’s intake, calculated decisions are made considering the available space, infra-structure, class rooms, faculty strength, research laboratories etc. There are committees at every department/centre as well as at university level for space related matters. Certain areas are marked/identified to construct new hostels, facilities for students, teachers and staff which is a crucial requirement of the University. This has enabled us to optimize utilization of available space in a well-planned manner to ensure availability of open green spaces in the university.

The class rooms/laboratories/seminar halls and meeting rooms of Departments/ Centres are sufficient in numbers and are well equipped as per statutory guidelines. Audio-visual systems with LCD projectors are available in classrooms/seminar halls/laboratories. Besides use of white board in teaching some departments/centres have smart boards. Teachers/staff and students can use Wi-Fi internet across the campus through cyber roam access. This facilitates dynamic teaching-learning environment, enabling access to videos and other online resources, e-books, MOOCs, online courses, online journals and edatabases which are subscribed. Besides seminar halls in Departments/Centres, Jamia has a 500 and a 300 seated auditorium, and

several lower seating capacity conference halls, that can be used by any Faculty/Department/Centre for organizing seminars, lectures, symposia, conferences, workshops, film shows, drama/club activities.

University Central Library has excellent centralized library resources, Digital resource centre, reading hall and computer centre. Subject-specific libraries with specialized books, volumes/periodicals and other essential resources are available for students at several Faculty/Departments/Centres. Besides dedicated computer lab/facility at each department/ centre, common central computer facility is available at Centre for Information Technology for students.

Department/Centre offering Science and Engineering programs have well equipped teaching and research laboratories which are regularly upgraded to allow for individual-centric, performance-based learning, with self-experimentation by students. There are functional departmental Instrumentation Facility (DIF) at almost all science and engineering departments and several other departments. The University provides additional funds to the Departments for up-gradation, maintenance and repairs of teaching/research/office facilities based on request/requirement.

In addition, University has established a Central Instrumentation Facility, equipped with advanced sophisticated instruments for research, which are also effectively used to provide PG/UG students with exposure to high-end instrumentation and allows them to conduct some of their practical. It is made accessible to researcher/students from outside the university as well.

The ground within its periphery now consists of Centrally Air-Conditioned Indoor Games Stadium along with Viewers Gallery which meets International standards.

The sports complex incorporates the following facilities:

- Cricket Ground
- Cricket Net Practice Wickets
- Football Ground
- Lawn Tennis Court
- Volleyball Court
- Badminton Court
- Basketball Court
- Table Tennis Court
- Fitness Centre (separate fitness rooms are available in girls hostels)
- Snooker Room
- Waiting Lounge
- Conference Room
- Games & Sports Equipment Store
- Jogging Track
- Hockey ground (Situated at the Faculty of Education)

[1.4] Campus Setting

Ramanujan Block, Faculty of Natural Sciences, Jamia Millia Islamia

Department of Physics, Jamia Milli Islamia

Campus View, Jamia Millia Islamia

Description:

Jamia Millia Islamia has managed to increase its groundwater table by over a metre through rainwater harvesting because the university continued to replenish its groundwater with 17 injection wells and open wells spread over the campus. Jamia has taken further step to expand rainwater harvesting so that the salinity of groundwater in certain parts of the campus is diluted to make it fit for regular use. (Time of India; 26 June 2019).

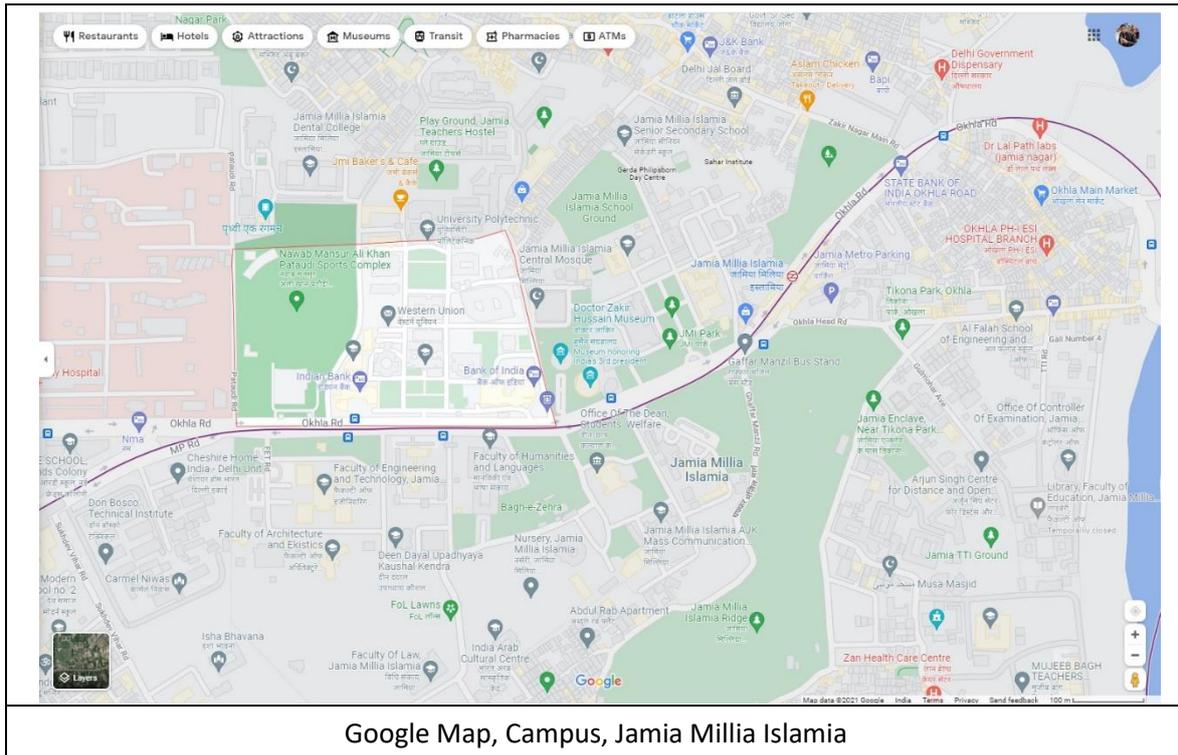

Integrated Energy Policy of the government lays a roadmap to ensure Energy Availability, Equity, Access, and Affordability and Security of the nation. Exploitation of renewable energy resources and increase in the share of clean power are priority areas to achieve per-capita energy consumption at par with the global average by 2050, through a sustainable and diverse fuel-mix and indigenous development of new and renewable energy technologies, products & services. Jamia has taken a lead in deploying rooftop solar powered systems for water heating in hostels and electricity generation for reducing dependence on conventional power supply. The power requirement of the University is about 11 MW, out of which about 2.5MW is being met from solar generated power. The Electrical Engineering department of the University has also set up an Advance Power Electronics Research Lab, where research and capacity building efforts for harnessing solar power and developing prototype equipment like solar powered inverter, have been initiated. The University plans to augment existing solar generation, with a vision to meet entire power requirement from clean source of energy and to create necessary infrastructure for capacity building, research and development of innovative products to help realize the laid-down Vision of the government.

Description:

Jamia Millia Islamia is carrying a lot of work in the area of Conservation of plant, animal, genetic resources for food and agriculture secured in either medium or long-term conservation facilities. The department of biotechnology is doing projects for the genetic conservation of crops and food.

- Green house for planting vegetables for campus and campus residents
- Herbal garden, Teacher Hostel Campus, Jamia Millia Islamia.
- Molecular lab, genome research lab are available in Jamia Millia Islamia
- Advanced central instrumentation facility available for research purpose which caters nation wise sample analysis.
- Flora Book (Catalogue) available for research and knowledge purpose in all the departments/centers and offices of the University.

CRITERIA-II

ENERGY AND CLIMATE CHANGE

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[2] Energy and Climate Change (EC)

[2.1] Energy Efficient Appliances Usage

LED Lights/Panel in different building at Jamia Millia Islamia

Solar Panel array in different buildings at Jamia Millia Islamia

Solar water Plant in different buildings of Jamia Millia Islamia

Description:

Solar water heater is installed on the roof of all the hostels, dormitories, and guest houses fulfilling the hot water requirement.

Jamia Millia Islamia is using energy efficient appliances in its campus. Energy efficient LED lamps, fans and other appliances which runs on solar energy.

Appliance	Total Number	Total number energy Efficient appliances	Percentage
LED Lamp	10400	7384	71%
Fan	10500	8925	85%
Water Heater	135	108	80%
		Average Percentage	78.66%

[2] Energy and Climate Change (EC)

[2.5] Renewable Energy Sources in Campus

Description:

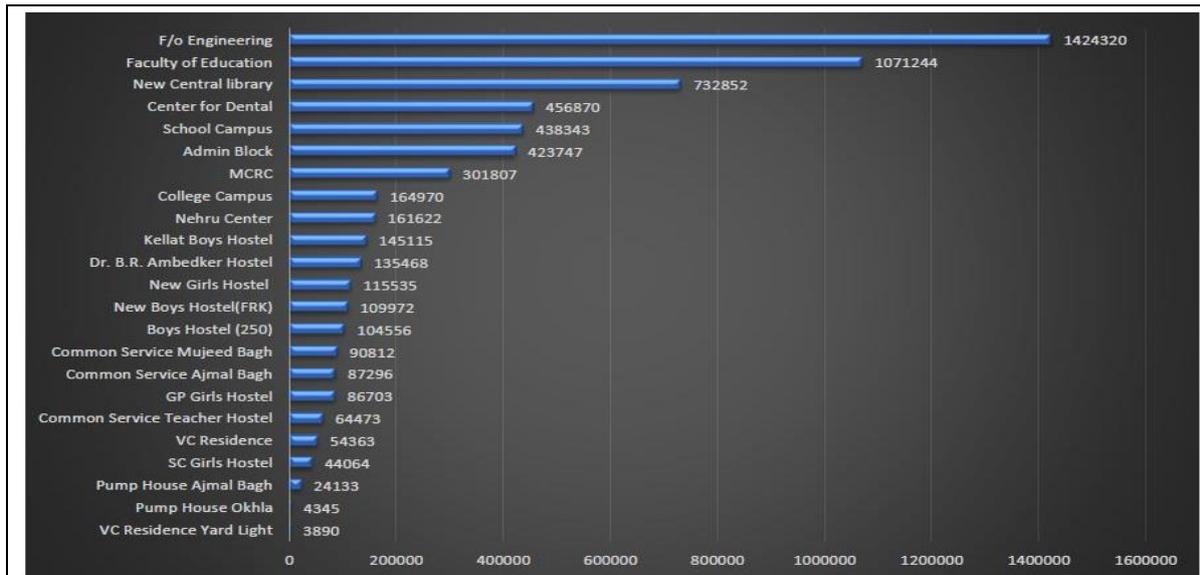

Jamia Millia Islamia has installed roof top solar plant in various buildings/blocks having capacity of 2.6 Mega Watt. This plant is online and net metering is done with the power supply company (BSES). The use of renewable energy is also done in many research activities in various labs of JMI. A separate research is also going on to increase the efficiency of cell material used for producing electricity from solar.

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[2] Energy and Climate Change (EC)

[2.6] Electricity Usage per Year (in Kilowatt hour)

Electricity Usage (Different Locations), Jamia Millia islamia

Monthly Electricity Usage (kWh), Jamia Millia Islamia

Description:

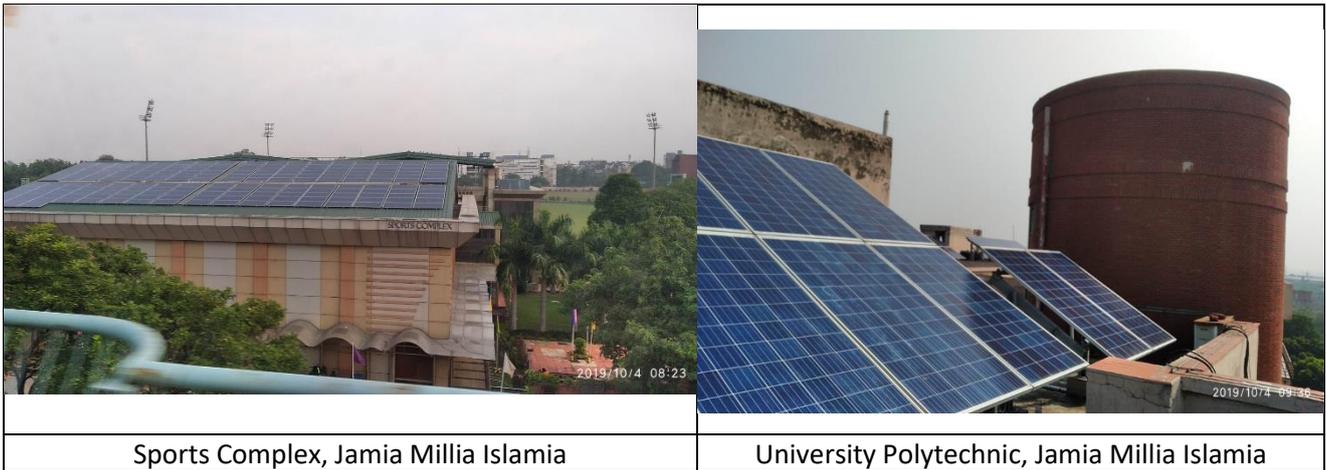

The total electricity usage of Jamia Millia Islamia is 7590888 kWh. JMI used electricity for lighting, HVAC and laboratory and other services appliances. Net metering is also in place in JMI due to inhouse power generation through solar power plant.

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in>

[2] Energy and Climate Change (EC)

[2.7] ratio of renewable energy production divided by total energy usage per year

Sports Complex, Jamia Millia Islamia University Polytechnic, Jamia Millia Islamia

Description:

Roof on every University building is installed with solar panels generating the power of 2.5 mega watt catering to the half of the University power requirement.

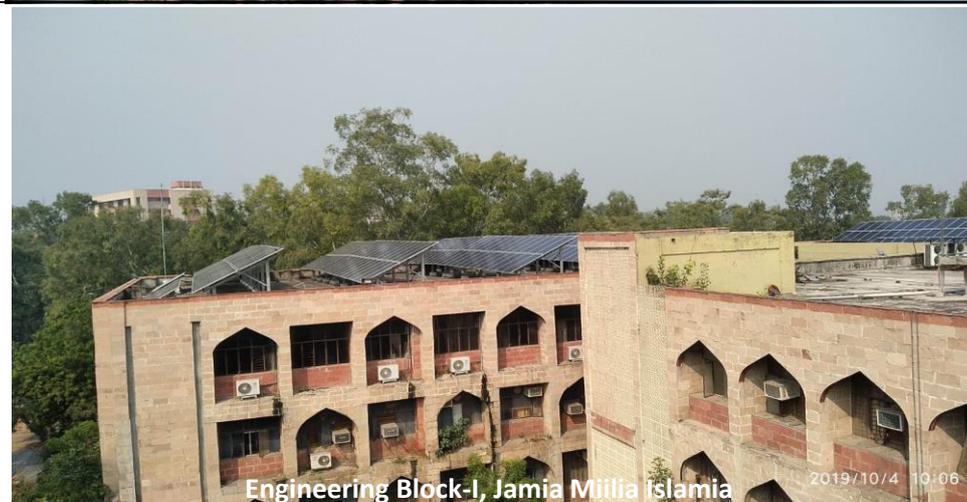

No	Renewable Energy	Production (in kWh)
1	Solar panel	2600
	Total	2600

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[2] Energy and Climate Change (EC)

[2.9] Elements of Green Building Implementation as Reflected in All Construction and Renovation Policies

Description:

The University buildings are design with the considering the humid, sub tropical weather to beat the extreme heat and winter condition proper ventilation passages and windows are specially architect to met the weather requirements. The construction work aim to sustain the extreme weather conditions and comfort. Every building is properly ventilated with the equipped ventilator devices.

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in>

[2] Energy and Climate Change (EC)

[2.10] Greenhouse gas emission reduction program

1. Renewable Energy, Jamia Millia Islamia

Screenshot of the Jamia Millia Islamia website showing the Environmental Sustainability Plan. The page title is "Environmental Sustainability Plan". The content includes:

The Nodal officer shall take necessary steps in the areas as mentioned below but not limited to, for implementation of the Policy.

1- Biodiversity And Carbon Footprint.

3.A Energy Conservation & Management

- Jamia Millia Islamia (JMI) shall make vigorous efforts to conserve energy by optimizing the use of light, Air Conditioners, heaters, computers, office equipment and appliances. The Office of the Nodal Officer, Environment and Sustainability Cell shall develop detailed guidelines for each of the above aspects and publicize the same across the university.
- All the new electrical product(s)/gadgets purchased shall be energy efficient.
- Provisions shall be explored to seek power supply from low carbon sources and renewable energy strategies like solar energy shall be strengthened. The focus will be to reduce carbon dioxide emissions arising from our fleet, buildings, laboratories, staff, and student commuting.
- Fleet of zero emission vehicles.
- Solar PV system with a current capacity of 2.6 MW.

At the outset, it is important to mention that the power requirement of the University is about 11 MW, out of which about 2.6 MW is being met from solar-generated power. The University plans to augment existing solar generation, with a vision to meet the 25 % of the entire power requirement from the clean source of energy and to create the necessary infrastructure for capacity building, research, and development of innovative products to help realize the laid-down Vision of the government. Various methods are being practiced to conserve electricity and energy consumption on the campus. Currently the energy requirement of the university is 50000 KW-h and out of it 7500KW-h that roughly comes out to be 18.2 % of the total demand. By using the renewable source of energy university is annually saving more than 3000 tons of carbon.

The followings are some important measures that are practised in the university:

- The University has installed a 2.6 MW roof-top solar power plant.
- Solar water heaters have been installed in hostels and guest house which ensures utilization of green and renewable sources of energy for residential purposes by the students and others.
- CFL, LED, star-rated power equipment, etc. are being used which gives better illumination and consumes lesser electricity.
- While procuring electrical equipment stress is laid on a better star rating standard for lesser electricity consumption.
- About 100 Solar streetlights have been provided at select locations in the campus and staff residential area.

1.G Sustainable Waste Disposal

The University has adopted the OPE 2017 vide resolution no EC-2017 (8) Item-4 of the Executive Council held on 20-06-2017. Henceforth, any hazardous waste/scrap batteries/electronic waste and other items consisting of hazardous waste shall be sold keeping in view the extant guidelines of the Ministry of Environment & Forest. Prospective bidders of such lots of hazardous waste/ scrap batteries/ e-waste should be in possession of registration, valid on the date of e-Auction and on the date of delivery, as recycler/ preprocessor agency.

Certain surplus or obsolete or unserviceable goods such as expired medicines, food grain, chemicals etc. which are hazardous or unfit for human consumption, should be disposed of or destroyed immediately by adopting suitable mode so as to avoid any health hazard and/or environmental pollution and also the possibility of misuse of such goods.

The university has established a formal policy to reduce the use of paper and plastic. To reduce the use of papers, emphasis is given on using digital technologies, reducing paperwork by using electronic communications for administrative and project works. Online submission of project proposals and online database management. Creation of web repository of documents to avoid using papers. All the academic processes (eg: procedure for transcripts or mark sheets; notifications regarding courses; important notices, etc.) are uploaded online to reduce the use of paper. Initiative by NSS is taken to reduce PLASTIC WASTE by using plastic bottles to create self-watering plants and store houses for plants. It could act as shelter and help them to grow properly. Apart from this, in terms of waste management, the organic waste is treated at the source itself.

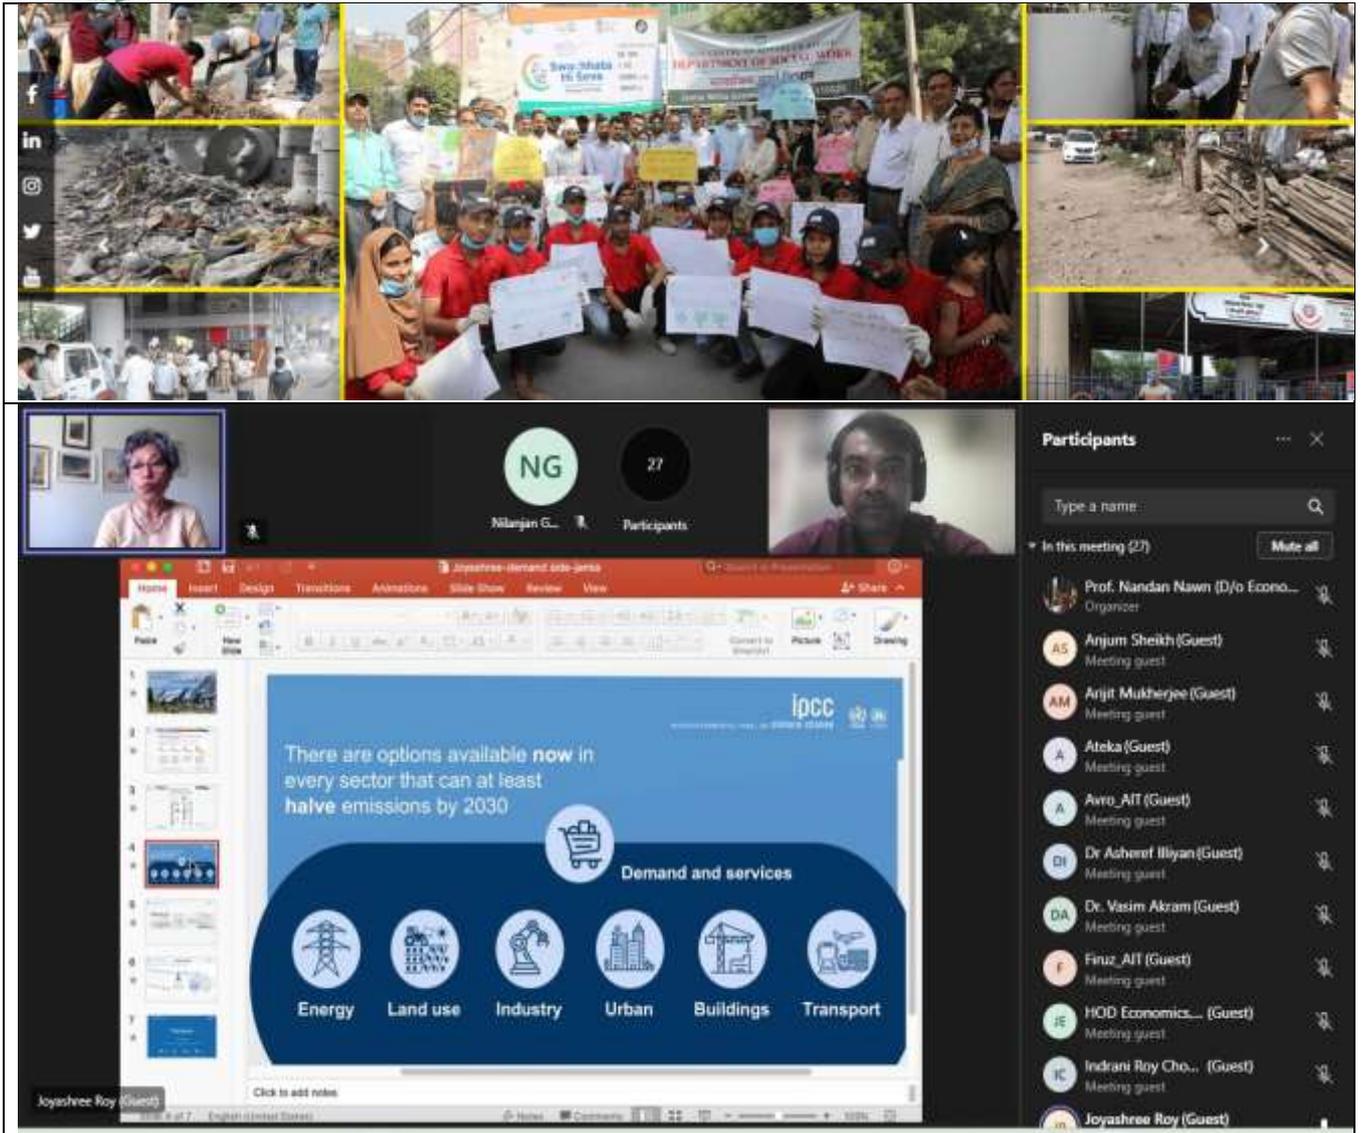

- Emphasis on organic/ inorganic/ toxic waste treatment
- Classification of dry and wet waste & their proper disposal
- Use of water efficient appliances

Composting Facility

Tree Plantation

Description:

To reduce greenhouse emission, Jamia Millia Islamia has made several initiatives which are listed below:

Energy Management

- JMI has adopted a policy of utilizing solar energy to cater to its energy requirements. All rooftops in the campus have been fitted with Solar panels to generate solar energy. During the year 2022-23 we generated 2763626 kWh renewable energy.
- Reduce energy consumption. As per the notified Climate Action plan, a policy has been notified that encourages students and staff to turn off lights and appliances when they are not in use, and to participate in energy conservation campaigns.

Transportation

- Students, Faculty & Staff are encouraged to use bicycles & e-battery rickshaw to move in the campus.
- As per the notified Climate Action Plan a "Vehicle Free Day" is observed by faculty & staff on rotational basis.

Waste Management

- **Reduce, reuse, and recycle.** The university maximizes the life of existing computer systems (for low computational work) by reusing the parts of old systems before disposing them as E-Waste.

- **Compost food waste.** Multiple composting plants have been setup to reduce methane emissions, which are a potent greenhouse gas.

Other Measures

- **Plant trees and other vegetation.** As trees and other plants can absorb carbon dioxide from the atmosphere, the university regularly carry out plantation drives in and around the campus.
- Educate students and staff about climate change and sustainability. Academic programs such as Workshops, Conferences are regularly conducted to spread awareness about climate change and need for sustainable development.

By implementing these measures, the university has made a significant contribution to reduce greenhouse gas emissions and mitigating climate change.

[2] Energy and Climate Change (EC)

[2.11] Please Provide The Total Carbon Footprint (CO₂ emission in the last 12 months, in metric tons)

Option 2: Recommended by UI GreenMetric

CO₂ (electricity)

$$= \frac{\text{electricity usage per year (kWh)}}{1000} \times 0,84$$

$$= \frac{7590888kWh}{1000} \times 0,84$$

$$= 6376.34 \text{ metric tons}$$

CO₂ (cars)

$$= \frac{\text{number of cars entering your university} \times 2 \times \text{approximate travel distance of vehicle each day inside campus only (KM)} \times 240}{100} \times 0,02$$

$$= \frac{122 \times 2 \times 5 \times 240}{100} \times 0,02$$

$$= 48 \text{ metric tons}$$

CO₂ (motorcycle)

$$= \frac{\text{number of motorcycle entering your university} \times 2 \times \text{approximate travel distance of vehicle each day inside campus only (KM)} \times 240}{100} \times 0,01$$

$$= \frac{100 \times 2 \times 5 \times 240}{100} \times 0,01$$

$$= 24 \text{ metric tons}$$

CO₂ (total)

$$= 6376.34 + 48 + 24$$

$$= 6448.34 \text{ metric tons}$$

Carbon footprint in 2022 = 6448.34 metric tons

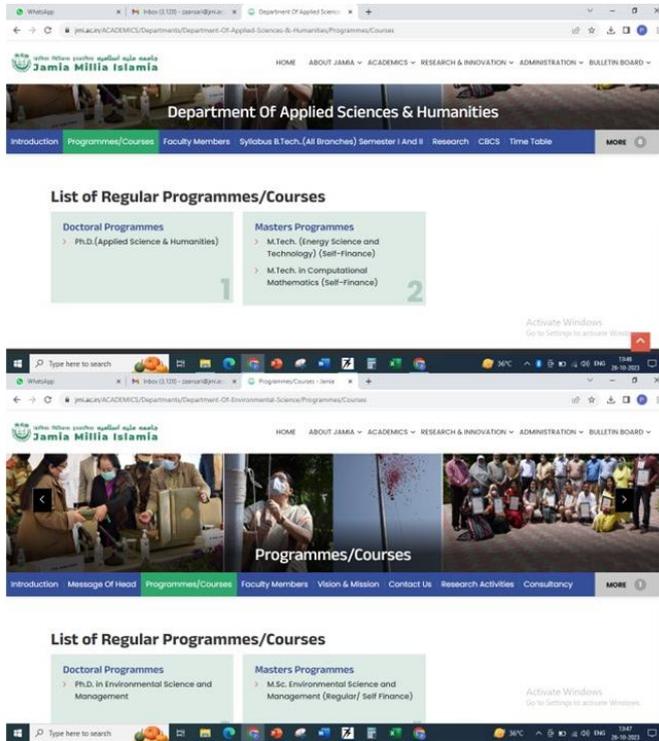

Total Carbon Footprint, Jamia Millia Islamia

University : Jamia Millia Islamia
Country : India

SHYAM KHANDEKAR Essays: VINAYAK BHARNE

myliveablecity na010 uitgeverij/publishers

Shyam Khandekar has been the principal urban-designer of the Paleiskwartier project for over 30 years, firstly as Director of his Dutch design practice Khandekar Urban Design & Landscape, then as Director of BDKhandekar and in recent years through his practice ICONS/NL. He continues to lead design efforts in several major redevelopment projects in India and Netherlands. He is co-author/editor of the book Affordable Housing, Inclusive Cities.

Vinayak Bharne is Adjunct Associate Professor of Urbanism at the University of Southern California in Los Angeles, Co-Director of the India-Netherlands-based knowledge platform, My Liveable City, and the author/editor of numerous books including The Emerging Asian City; Routledge Companion to Global Heritage Conservation and the forthcoming Urbanism Beyond 2020. He has practiced as an urban designer and city planner in the United States, Panama, China, Australia and India.

Description:

Jamia Millia Islamia has setup few smart control room during Covid-19 to monitor the various cases and their recoveries. A dedicated team of in house medical professionals were available round the clock to facilitate the diagnosis and medical treatment etc.

A mobile unit equipped with all necessary medical equipment's and professionals used to cater the initial medical services to its employees and students and near by areas.

JMI organized various sustainability activities and Book launch.

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[2] Energy and Climate Change (EC)

[2.14] Impactful university program(s) on climate change

Description:

Jamia Millia Islamia built a sewage treatment plant facility in its campus, to carryout all the waste disposal form its campus to utilize it in the form of environment friendly applications. Apart from this, university also have its own rain harvesting systems, and various small solar generations units to cater electricity for research purpose. Faculty of Engineering of Universitas Indonesia build windmills as a power plant in the village of Bungin.

CRITERIA-III

WASTE

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[3] Waste (WS)

[3.1] 3R (Reduce, Reuse and Recycle) Program for University Waste

Recycling Program, Jamia Millia Islamia

Description:

Jamia Millia Islamia recycles its waste by classifying it into two categories – Dry Waste and Wet Waste. The collection of these waste is to be done through marked collections points and than all these were taken to waste management /recycling stations for their proper disposal.

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in>

[3] Waste (WS)

[3.2] Program to Reduce the Use of Paper and Plastic on Campus

Program to Reduce the Use of Paper and Plastic in Campus, Jamia Millia Islamia

Description:

1. Jamia Millia Islamia IT supports paperless system (MIS/FTS, NAD/Digi locker, PFMS) to reduce paper in daily workplace. It can reduce a lot of paper use that mean Jamia Millia Islamia can reduce CO2 emissions and save the world.
2. Jamia Millia Islamia practices the Solutions of reusable paper in back office, e.g. using 2-side of paper, always recheck your data before print, use online system instead of hard copy.
3. Jamia Millia Islamia in the last few years has a policy of “Reduce Reuse plastic bag.

UI GreenMetric Questionnaire

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[3] Waste (WS)

[3.3] Total volume organic waste produced

Type of organic waste	Total Produced (ton)
- food waste	1
- leaf, etc.	5
- etc	3
Total	9

Description:

Jamia Millia Islamia produces 9 tons of organic waste and calculate its volume need to know the density of the organic waste. The density of organic waste can vary, as mentioned earlier, depending on its composition and moisture content.

Let's assume an average density of 900 kg/m³ (which is a rough estimate for organic waste). Then, calculate the volume as follows:

$$\text{Volume} = \text{Mass (tons)} / \text{Density (kg/m}^3\text{)}$$

UI GreenMetric Questionnaire

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[3] Waste (WS)

[3.4] Total volume organic waste treated

Type of waste	amuount (ton)			
	total	reduced	reused	recycled
organic	9	-----	-----	9
- food waste	1	-----	-----	1
- leaf, etc.	5	-----	-----	5
- etc	3	-----	-----	3

Description:

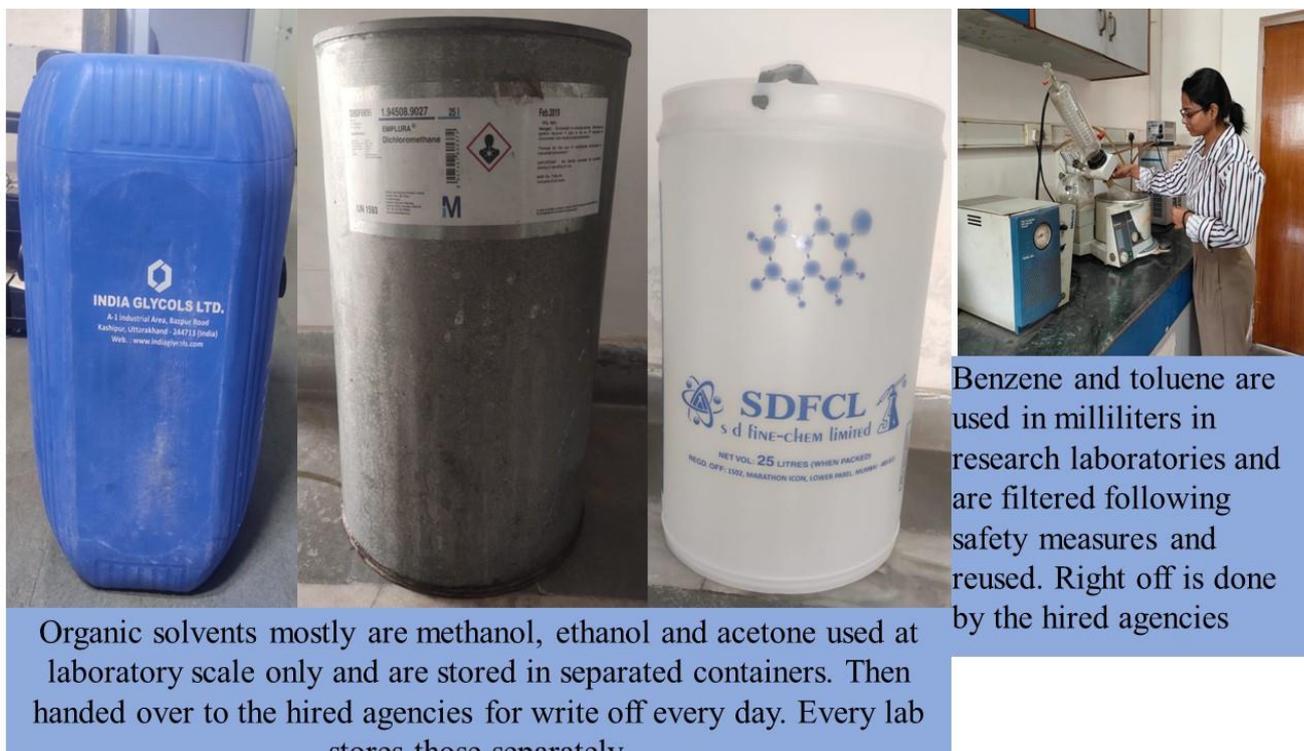

Jamia Millia Islamia treated 9 tons of organic waste and calculate its volume need to know the density of the organic waste. The density of organic waste can vary, as mentioned earlier, depending on its composition and moisture content.

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[3] Waste (WS)

[3.5] Organic Waste Treatment

Organic solvents mostly are methanol, ethanol and acetone used at laboratory scale only and are stored in separated containers. Then handed over to the hired agencies for write off every day. Every lab stores those separately.

Benzene and toluene are used in milliliters in research laboratories and are filtered following safety measures and reused. Right off is done by the hired agencies

Description:

The institute restricts the use of toxic or harmful solvents at graduate or research laboratories. The institute has hired agencies to write off the not usable organic solvents, such as methanol, ethanol and acetone, in laboratories across the campus. The reusable solvent and non-reusable solvents are stored in separate containers in every laboratory. The wastage accumulates in a few liters in every lab on a monthly basis which are collected by the authorized hired agencies on quarterly basis. Use of Benzene and Toluene restricted, when used are stored and filtered using rotary extractor, following safety measures, and reused. The same process is used for writing off.

Description:

Jamia Millia Islamia is having in house organic waste treatment plants to cater the waste management in environment friendly manner for its sustainable development. The University is also having dry compost plant in its horticulture department for the de composition of the dry waste.

UI GreenMetric Questionnaire

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[3] Waste (WS)

[3.6] Total volume inorganic waste produced

Type of inorganic waste	Total Produced (ton)
- paper	50
- soft plastic	1
- hard plastic	1
- etc	5

Description:

Jamia Millia Islamia produced its inorganic waste. The collection of these waste is to be done through marked collections points and then all these are taken to waste management /recycling stations for their proper disposal.

UI GreenMetric Questionnaire

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[3] Waste (WS)

[3.7] Total volume inorganic waste treated

Type of waste	amuount (ton)				
	total	reduced	reused	down-cycled	up-cycled
inorganic non-toxic	57	----	----	56	1
- paper	50	----	----	50	----
- soft plastic	1	----	----	----	1
- hard plastic	1	----	----	1	----
- etc	5	----	----	5	----

Description:

Jamia Millia Islamia produced its inorganic waste. The collection of these waste is to be done through marked collections points and then all these are taken to waste management /recycling stations for their proper disposal.

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[3] Waste (WS)

[3.8] Inorganic Waste Treatment

Description:

1. Inorganic Waste treatment in JMI in its various departments like physical sciences, biological sciences, semi conducted labs etc is done by physical, chemical and biological processing to remove inorganic contaminants from inorganic wastages.
2. Common parameters requiring treatment include suspended solids, dissolved metals, nitrate, ammonia, arsenic, sulphate and TDS.

UI GreenMetric Questionnaire

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[3] Waste (WS)

[3.9] Total volume toxic waste produced

Type of toxic waste	Total Produced (ton)
- electronics	1
- lab. Chemicals	0.0551
- etc	-----

Description:

Jamia Millia Islamia produced its toxic waste. The collection of these waste is to be done through marked collections points and then all these are taken to waste management /recycling stations for their proper disposal.

UI GreenMetric Questionnaire

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[3] Waste (WS)

[3.10] Total volume toxic waste treated

Type of waste	amuount (ton)				
	total	reduced	reused	down-cycled	up-cycled
toxic	1.0551	0.0551	----	0.5	0.5
- electronics	1	----	----	0.5	0.5
- lab. Chemicals	0.0551	0.0551	----	----	----
- etc	----	----	----	----	----

Description:

Jamia Millia Islamia treated its toxic waste. The collection of these waste is to be done through marked collections points and then all these are taken to waste management /recycling stations for their proper disposal.

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[3] Waste (WS)

[3.11] Toxic Waste Treatment

Toxic Waste Treatment, Jamia Millia Islamia

Description:

Toxic waste management in JMI is done by chemical, thermal, biological and physical methods in its various labs. Chemical methods include ion exchange, precipitation, oxidation and deduction, neutralization. Among the thermal method is high temperature incineration, which not only can detoxify certain organic wastes but also can destroy them.

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[3] Waste (WS)

[3.12] Sewage Disposal

Description:

Jamia Millia Islamia is having its own sewage treatment plants having capacity of 150 KLD to treat the sewage output of the University from different blocks of the building.

CRITERIA-IV

WATER

University : Jamia Millia islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[4] Water (WR)

[4.1] Water Conservation Program Implementation

Description:

Rain water harvesting systems are installed at various points in Jamia Millia Islamia for the conservation of the water. Rain water is thus collected from the roofs of the buildings and is then discharged into the local ponds and canals around the buildings. The university has also buildings where all the rainwater is collected for toilet flushing and for watering the plants inside the building. Apart from this, a separate sewerage system is also in practice.

University : Jamia Millia islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[4] Water (WR)

[4.2] Water Recycling Program Implementation

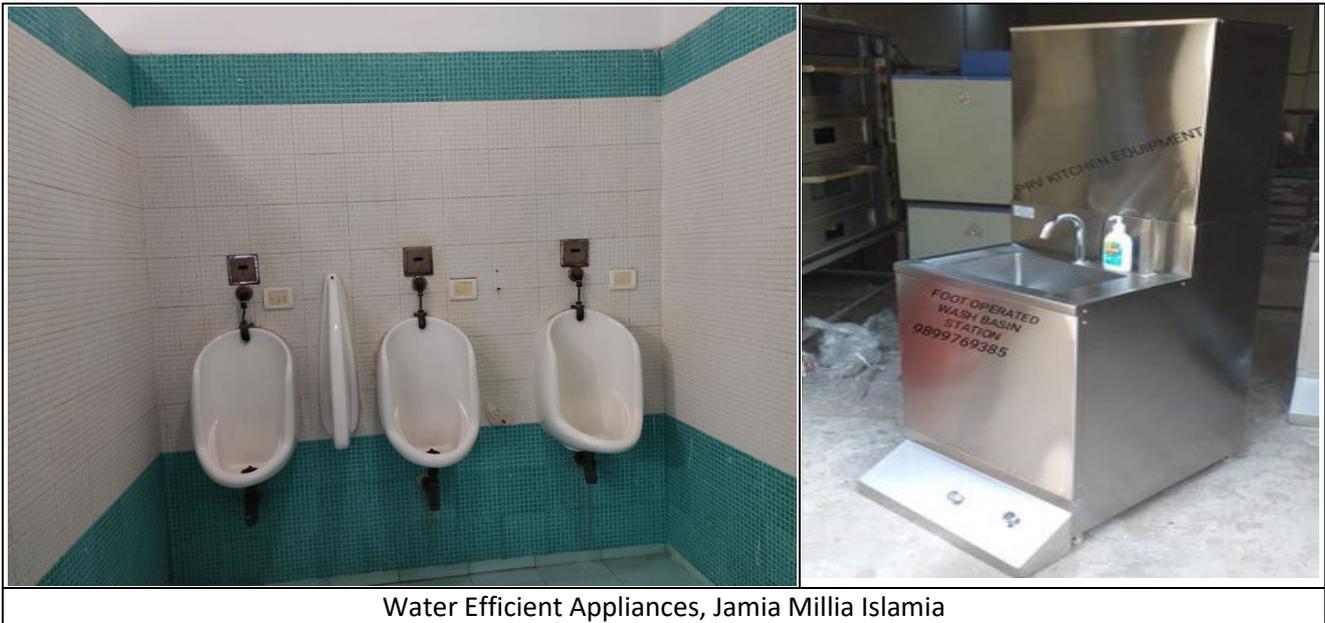

Description:

Jamia Millia Islamia is continuously doing water recycling through its plants to optimize the use of water so that wastes of water is minimize. Rainwater harvesting plants are also available at different locations of JMI with proper water meter installed. The recycled water also use for garden sprinkler system, toilet flush, cooling system, etc.

University : Jamia Millia islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[4] Water (WR)

[4.3] Water Efficient Appliances Usage (e.g. hand washing taps, toilet flush, etc.)

Water Efficient Appliances, Jamia Millia Islamia

Description:

Appliance	Total Number	Total number water Efficient appliances	Percentage
Toilet	1051	727	69%
Wastafel	488	318	65%
Etc.	650	581	89%
		Average Percentage	74.33%

University : Jamia Millia islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[4] Water (WR)

[4.4] Consumption of treated water

Description:

Water recycling treatment is done in JMI at two places having a total capacity of 150 kl. At CIE, JMI. We produced JMI Jal which is being used at various offices and students activity centres. Some of the recycled water is used by the horticulture department of JMI to maintain the green campus.

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[4] Water (WR)

[4.5] Water pollution control in campus area

Description:

Jamia Millia Islamia is having its own sewage treatment plants having capacity of 150 KLD to treat the sewage output of the University from different blocks of the building.

JMI Installed RO systems in whole campus for purification of polluted water.

JMI has a setup for Packaged drinking water under the brand name of JMI Jal.

Policy

JMI has a policy on preventing and reducing water pollution of all kinds, in particular from land-based activities.

Wastewater Treatment

JMI has a system to prevent polluted water to enter the water system by using waste water management and microfilter.

CRITERIA-V

TRANSPORTATION

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in>

[5] Transportation (TR)

[5.4] The total number of vehicles (cars and motorcycles) divided by total campus' population

No.	Vehicle	Total Number
1	Car managed by the university	25
2	Cars entering the university	386
3	Motorcycles entering the university	1486
	Total	1897

$$5.4 = 1897/19307 \text{ (population)} = 0.09825$$

Description:

Jamia Millia Islamia is having significant no. of cars and motorcycles. There is daily commuting of could no. of vehicles entering in its campus. The emission by these vehicles is under control and each vehicle managed by the university is having Pollution Under Control (PUC) certification from the competent authority of Govt. of India.

[5] Transportation (TR)

[5.9] Zero Emission Vehicles (ZEV) Policy on Campus

Zero Emission Facility, Jamia Millia Islamia

E-rickshaw used at campus-Jamia Millia Islamia

Bycycle used at campus-Jamia Millia Islamia

Zero emission vehicles at campus, Jamia Millia Islamia

Description:

All Jamia Millia Islamia sites are cyclist and pedestrian friendly. Many have vehicle-free paths for these users. There is a minimal speed limit on all internal roads, and cycle paths on the public roads. All sites have cycle parking at appropriate place. There is proper arrangements for repair and maintenance/servicing of the cycles. Community groups are encouraging there use of cycles in the campus as well as in near by areas to facilitate various outreach programs of the University.

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[5] Transportation (TR)

[5.13] Ratio of Parking Area to Total Campus Area

Google Map Layout, Jamia Millia Islamia

Total Campus Area, Jamia Millia Islamia

Description:

Total main campus area: 967360.559m²

Total parking area = 64483m² (5.56534991m²).

Total Population: 19307

Ratio = 6.66

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[5] Transportation (TR)

[5.14] Program to limit or decrease the parking area on campus for the last 3 years (from 2020 to 2022)

University Transport Facility, Jamia Millia Islamia

Cycle/Electric Vehicle Facility, Jamia Millia Islamia

Description:

1. Dedicated Cycle Parking Spaces for Students and Staff
2. Dedicating Parking Space for University Transport
3. Dedicated Spaces for Staff Vehicles in Various Departments

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[5] Transportation (TR)

[5.15] Number of Transportation Initiatives to Decrease Private Vehicles on Campus

University Transport Services

Cycle Facility

Description:

1. University transport facility available at campus.
2. Cycle facility is also available for students and staff.

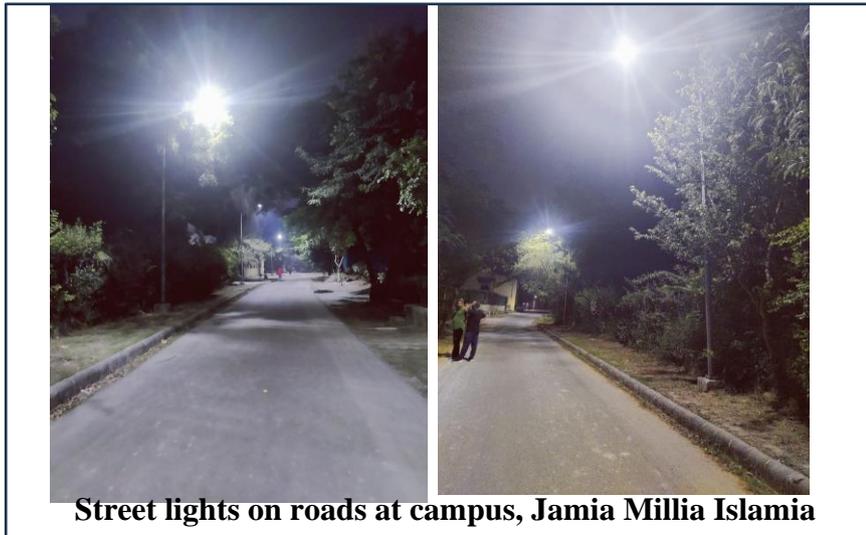

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[5] Transportation (TR)

[5.16] Pedestrian Path Policy on Campus

Ramp/pedestrian path, Jamia Millia Islamia

Description:

1. Separator between road for vehicle and pedestrian path.
2. Ramps and guiding blocks which have suitable design for pedestrian having physical disabilities.
3. Street lamp for pedestrian in night.

[6] Education and Research (ED)

[6.1] Number of Courses/Subjects Related to Sustainability Offered

Programs	Note
M.A.(English)	Subject related to communications social equality and sustainability in society
B.A.(Hons)(English)	Subject related to communications social equality and sustainability in society
P.G. Diploma in Translation Studies	Subject related to communications social equality and sustainability in society
M.A.(Hindi)	Sustainable journalism and social communication related areas
P.G.Diploma in Journalism (Hindi Medium)	Sustainable journalism and social communication related areas
P.G.Diploma in TV Journalism (Hindi Medium)	Sustainable journalism and social communication related areas
Post Graduate Diploma in English-Hindi Translation	Sustainable journalism and social communication related areas
M.A. (Mass Media Hindi)	Sustainable journalism and social communication related areas
B.A.(Hons) (Hindi)	Sustainable journalism and social communication related areas
B.A.(Hons)(Mass Media Hindi)	Sustainable journalism and social communication related areas
Master of Tourism and Travel Management (MTTM)	Sustainable tourism including economic, social and environmental issues, eco friendly practices in travel
Bachelor of Hotel Management (BHM)	Sustainable tourism including economic, social and environmental issues, eco friendly practices in travel and food management
Bachelor of Tourism and Travel Management	Sustainable tourism including economic, social and environmental issues, eco friendly practices in travel
B.Voc (Food Production)	Sustainable tourism including economic, social and environmental issues, eco friendly practices in travel and food management
PG Diploma in Tourism & Travel Management	Sustainable tourism including economic, social and environmental issues, eco friendly practices in travel

M.A./M.Sc.(Development Extension)	Subjects related to good practices in solving the rural problems, adoption of innovation.
M.A.(Economics)	Subjects related to good practices in solving the environmental problems and conserving resources.
M.Sc.(Banking and Financial Analytics)	Subjects related to equitable and sustainable society.
B.A.(Hons) (Economics)	Subjects related to good practices in solving the environmental problems and conserving resources.
M.A.(Social Work)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Human Resource Management)	To understand sustainability as patterns and policies including human and nature for current and future generation.
Advanced Diploma in Public Health	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Sociology)	To understand sustainability as patterns and policies including human and nature for current and future generation.
B.A.(Hons)(Sociology)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Political Science)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Human Rights & Duties Education)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Public Administration)	To understand sustainability as patterns and policies including human and nature for current and future generation.
B.A.(Hons.)(Political Science)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Applied Psychology)	Subject related to psychologically sustainability
Advanced Diploma in Counselling Psychology	Subject related to psychologically sustainability
B.A.(Hons)(Psychology)	Subject related to psychologically sustainability
MBA (Healthcare and Hospital Management)	Subject related to psychologically and healthcare sustainability
PG Diploma in Unani Pharmacy	Subject related to human health under unani system of medicines

M.Sc.(Biosciences)	Subject related to eco system of the earth, its protection managing and monitoring
M.Sc.(Biochemistry)	To determined in environmental causes related to human growth
M.Sc.(Microbiology)	Subject related to eco system of the earth, its protection managing and monitoring
B.Sc.(Biosciences)	Subject related to eco system of the earth, its protection managing and monitoring
Ph.D. Unani Medicine	Subject related to human health under unani system of medicines
M.Sc.(Biotechnology)	Subject related to biotech crops, biological alternatives or human growth
B.Sc.(Biotechnology)	Subject related to biotech crops, biological alternatives or human growth
M.Sc. (Chemistry: Materials/ Inorganic/ Organic/ Physical)	To determined in environmental causes related to human growth
B.Sc.(Hons) (Chemistry)	To determined in environmental causes related to human growth
Ph.D. Bioscience	Subject related to eco system of the earth, its protection managing and monitoring
M.Sc.(Bioinformatics)	Subject related to genome coding, Sequencing
M.C.A	Subject related to genome coding, Sequencing
P. G. Diploma in Computer Application	Subject related to genome coding, Sequencing
Ph.D. Biotechnology	Subject related to biotech crops, biological alternatives or human growth
M.A./M.Sc.(Geography)	Practice of using natural resourcing, their use and availability in future
M.Sc. (Disaster Management & Climate Sustainability Studies)	Practice of using natural resourcing, their use and availability in future
P. G. Diploma in Remote Sensing & GIS Application	Practice of using natural resourcing, their use and availability in future
B.A./B.Sc.(Hons) (Geography)	Practice of using natural resourcing, their use and availability in future
P.G. Diploma in Disaster Management	Practice of using natural resourcing, their use and availability in future
Ph.D. Geography	Practice of using natural resourcing, their use and availability in future
M.Sc. (Mathematics with Computer Science)	Subject related to exploration of new models for sustainable development
M.A./M.Sc.(Mathematics)	Subject related to exploration of new models for sustainable development
B.Sc.(Hons) (Mathematics)	Subject related to exploration of new models for sustainable development

B.Sc.(Hons) (Applied Mathematics)	Subject related to exploration of new models for sustainable development
Ph.D. Chemistry	To determined in environmental causes related to human growth
M.Sc. (Physics)	Subjects related to sustainable energy with respect to earths natural resources
B.Sc.(Hons) (Physics)	Subjects related to sustainable energy with respect to earths natural resources
B.Voc (Solar Energy)	Subjects related to sustainable energy with respect to earths natural resources
Ph.D. Physics	Subjects related to sustainable energy with respect to earths natural resources
M.A.(Educational Planning and Administration)	Subjects related to change in peoples value and behaviours, developing life skills.
M.Ed.	Subjects related to change in peoples value and behaviours, developing life skills.
P.G.Diploma in Educational Management	Subjects related to change in peoples value and behaviours, developing life skills.
M.A.(Education)	Subjects related to change in peoples value and behaviours, developing life skills.
M.Ed.(Special Education)	Subjects related to change in peoples value and behaviours, developing life skills.
B.Ed.	Subjects related to change in peoples value and behaviours, developing life skills.
B.Ed.(Special Education)	Subjects related to change in peoples value and behaviours, developing life skills.
B.Ed.(Nursery Education)	Subjects related to change in peoples value and behaviours, developing life skills.
B.Sc.-Aeronautics, (Mechanical/Avionics)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
Ph.D. Electronics	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Sc.(Electronics)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech. (Energy Sciences)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech. (Computational Mathematics)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
Ph.D. Civil Engineering	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity

M.Tech.(Environmental Science & Engineering)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Tech.(Environmental Science & Engineering)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Tech.(Earthquake Engineering)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
B.Tech. (Civil Engineering)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
Ph.D. Computer Engineering	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech.(Computer Engineering)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
B.Tech. (Computer Engineering)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
Ph.D. Electrical Engineering	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech.(Electrical Power System Management)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech.(Control & Instrumentation System)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
B.Tech. (Electrical Engineering)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
Ph.D. Electronics & Communications Engineering	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech.(Electronics & Communication Engineering)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
B.Tech. (Electronics & Communications Engineering)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
Ph.D. Mechanical Engineering	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech .(Mechanical Engineering: Thermal Engineering)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech .(Mechanical Engineering: Machine Design)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Tech .(Mechanical Engineering: Production & Industrial	Subjects related to sustainable development to enhance the welfare, health and safety for all.

B.Tech. (Mechanical Engineering)	Subjects related to sustainable development to enhance the welfare, health and safety for all.
M.Sc. Environmental Science & Management	Subjects related to sustainable development to enhance the welfare, health and safety for all.
LL.M.	Study of environmental laws, social human laws etc
B.A.LL.B.(Hons)	Study of environmental laws, social human laws etc
B.A.LL.B.(Hons)	Study of environmental laws, social human laws etc
LL.M.	Study of environmental laws, social human laws etc
P.G. Diploma in Labour Laws	Study of environmental laws, social human laws etc
P.G. Diploma in Air and Space Laws	Study of environmental laws, social human laws etc
Ph.D. Architecture	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Arch.(Architecture Pedagogy)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Arch.(Healthcare Architecture)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Arch.(Building Services)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Arch.(Recreational Architecture)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Arch.(Urban Regeneration)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.Arch. (Ekistics)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity

B.Arch.	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
B.Arch.	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
Master of Design (M.Des.)	Study in the areas of conservation and restoration of natural resources, reduction in energy consumption and waste, protection of eco system and environmental bio diversity
M.F.A.(Applied Art)	Study in the areas of conservation and restoration of natural resources.
B.F.A.(Applied Art)	Study in the areas of conservation and restoration of natural resources.
M.F.A.(Art Education)	Study in the areas of conservation and restoration of natural resources.
B.F.A.(Art Education)	Study in the areas of conservation and restoration of natural resources.
Ph.D. Art History & Art Appreciation	Study in the areas of conservation and restoration of natural resources.
M.F.A.(Art History & Art Appreciation)	Study in the areas of conservation and restoration of natural resources.
M.F.A.(Graphic Art)(Print Making)	Study in the areas of conservation and restoration of natural resources.
M.F.A.(Painting)	Study in the areas of conservation and restoration of natural resources.
B.F.A. (Painting)	Study in the areas of conservation and restoration of natural resources.
M.F.A.(Sculpture)	Study in the areas of conservation and restoration of natural resources.
B.F.A.(Sculpture)	Study in the areas of conservation and restoration of natural resources.
B.D.S.	Subjects related to sustainable dentistry
M.A.(Mass Communication)	Sustainable journalism and social communication related areas
M.A.(Convergent Journalism)	Sustainable journalism and social communication related areas
M.A.(Development Communication)	Sustainable journalism and social communication related areas
M.A.(Visual Effects and Animation)	Sustainable journalism and social communication related areas
PG Diploma in Broadcast Technology	Sustainable journalism and social communication related areas

PG Diploma in Still Photography & Visual Communication	Sustainable journalism and social communication related areas
PG Diploma in Acting	Sustainable journalism and social communication related areas
M.A.(Politics: International & Area Studies)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.B.A.(Full Time)	Areas related to strategic management, sustainable management, operational management etc
M.B.A.(Executive)	Areas related to strategic management, sustainable management, operational management etc
M.B.A.(International Business)	Areas related to strategic management, sustainable management, operational management etc
M.B.A.(Entrepreneurship & Family Business)	Areas related to strategic management, sustainable management, operational management etc
Ph.D. Physiotherapy	Environmental sustainable physiotherapy
M.P.T.(Sports/Orthopaedics/Neurology/Cardiopulmonary)	Environmental sustainable physiotherapy
B.P.T. (Bachelor of Physiotherapy)	Environmental sustainable physiotherapy
B. Voc (Medical Laboratory Sciences)	Environmental sustainable physiotherapy
B. Voc (Medical Electrophysiology)	Environmental sustainable physiotherapy
Ph.D. Basic Sciences	Subject related to eco system of the earth, its protection managing and monitoring
M.Sc.(Biophysics)	Subject related to eco system of the earth, its protection managing and monitoring
M.A.(Conflict Analysis and Peace Building)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A. (Comparative Religion)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Social Exclusion & Inclusive Policy)	To understand sustainability as patterns and policies including human and nature for current and future generation.
B.A. (Hons.) French & Francophone Studies	To understand sustainability as patterns and policies including human and nature for current and future generation.
B.A. (Hons.) Spanish & Latin American Studies	To understand sustainability as patterns and policies including human and nature for current and future generation.

M.A. (International Relations-West Asian Studies)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.A.(Media Governance)	Sustainable journalism and social communication related areas
M.A.(International Studies -Arab Islamic Culture)	To understand sustainability as patterns and policies including human and nature for current and future generation.
M.Tech.(Nano Technology)	Subject related to the solution of urban sustainability problems like water contamination and energy use
Ph.D. Nano Science & Nano Technology	Subject related to the solution of urban sustainability problems like water contamination and energy use
M.A.(Gender Studies)	To understand gender sustainability as patterns and policies including human and nature for current and future generation.
Ph.D. Multidisciplinary Science	Subject related to the solution of urban sustainability problems like water contamination and energy use
Ph.D. Theoretical Physics	Subject related to the astronomy, global environment etc
PG Diploma in Molecular Diagnostics	Subject related to eco system of the earth, its protection managing and monitoring
P G Diploma in Entrepreneurship, Innovation & Design Thinking	Sustainable growth related subject
M.Sc.(Mathematics) Education	Subject related to exploration of new models for sustainable development

Description:-

Jamia Millia Islamia offers variety of courses/programmes related to sustainability dully approved by its academic council and other relevant authorities. The list is shown as above.

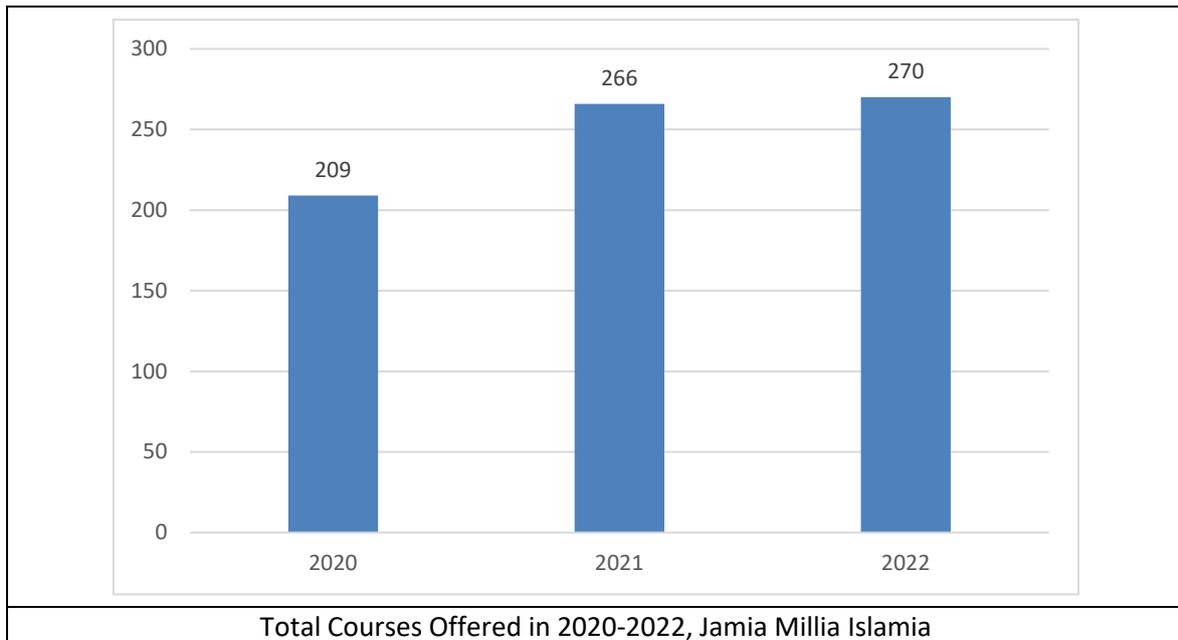

The list also includes courses with sustainability already embedded, and those that include the Sustainability in Practice Certificate as part of the core curriculum.

Total number of courses with sustainability embedded for courses running in 2022/23 = 259

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[6] Education and Research (ED)

[6.2] Total Number of Courses/Subjects Offered

Description:

(Please describe the total of courses/subjects offered on your campus. The following is an example of the description. You can describe more related items if needed.)

2020	209
2021	266
2022	270

Total number of courses offered in 2022 = 270 courses

University : Jamia Millia Islamia
Country : India
Web Address : <https://www.jmi.ac.in/>

[6] Education and Research (ED)

[6.4] Total Research Funds Dedicated to Sustainability Research (in US Dollars)

Research Labs for Sustainability Research, Jamia Millia Islamia

Description:

Total research fund dedicated to sustainability research in 2020 = 818937.33 S Dollars

Total research fund dedicated to sustainability research in 2021 = 656106.59 US Dollars

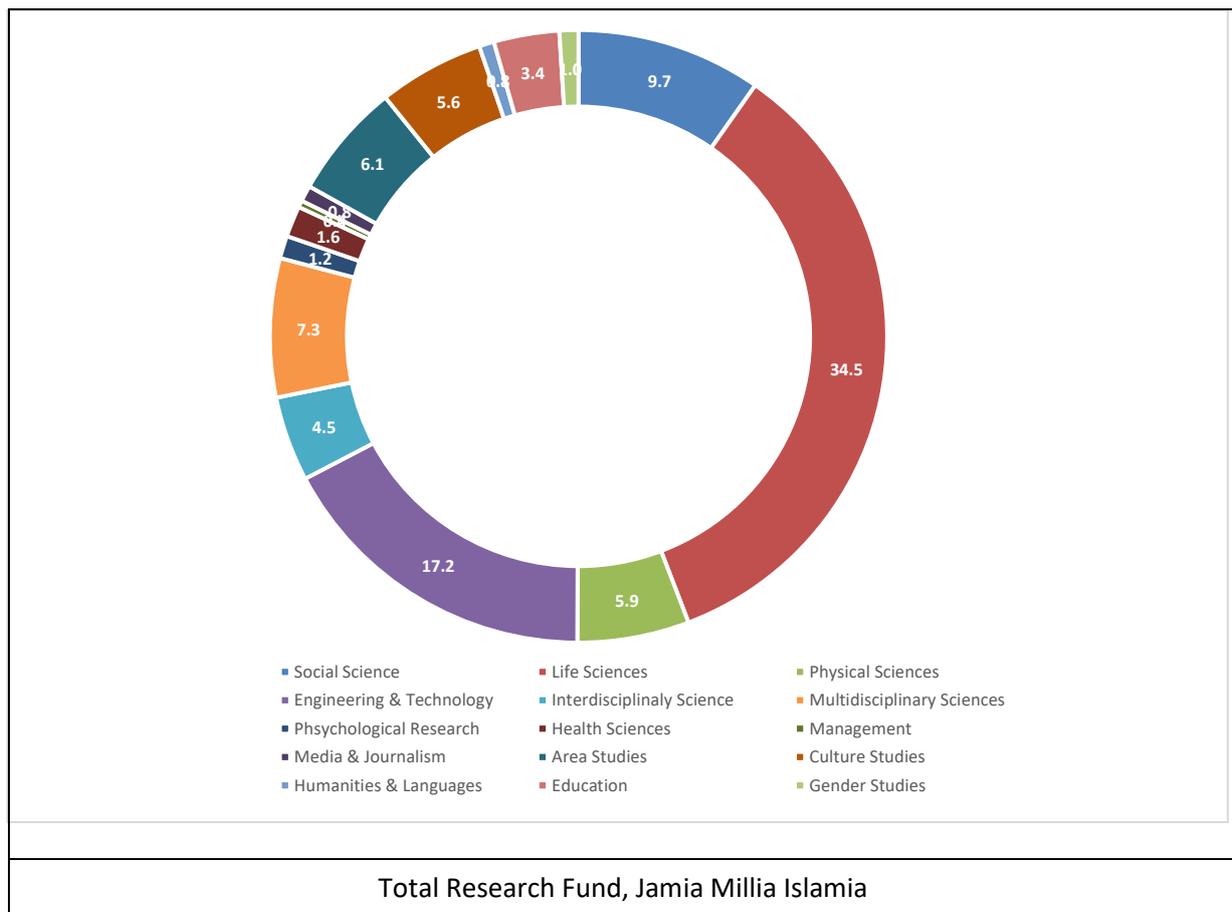

Total research fund dedicated to sustainability research in 2022 = 816545.94 US Dollars

The averaged annum last 3 years of research fund dedicated to sustainability research = 763863.29 US Dollars

University : Jamia Millia Islamia
 Country : India
 Web Address : <https://www.jmi.ac.in/>

[6] Education and Research (ED)

[6.5] Total Research Funds (in US Dollars)

Description:

Total research fund in 2020 = 2010649 US Dollars
 Total research fund in 2021 = 1591333 US Dollars
 Total research fund in 2022 = 1944157 US Dollars
 The averaged annum last 3 years of research fund = 1848713 US Dollars

SHYAM KHANDEKAR & VINAYAK BHATNE

Vinayak Bhatne is Adjunct Associate Professor of Urbanism at the University of Southern California in Los Angeles, Co-Chair of the India-Netherlands based knowledge platform, My Livable City, and the author-editor of numerous books, including The Remaking of Asia's Big Regional Capitals to Global Habitat Connections and the forthcoming Urbanism Beyond 2020. He has practiced as an urban designer and city planner in the United States, Panama, China, Australia and India.

CENTENARY CELEBRATION (1920-2020)
NATIONAL CONFERENCE ON RECENT ADVANCES IN BIOLOGICAL SCIENCES
 (INCRABS-2020) | March 05, 2020

AWARDS
 Best Young Investigator
 Best Oral Presentation
 Best Poster Presentation

ABSTRACT CONFERENCE
 Biology is fast moving from being a descriptive field to an exact science, a discipline that will increasingly come from the borders of Natural Sciences. The Congress of the Centenary of Biological Sciences and Innovative Research (ICBS-IR) is an international event that will be held in Jamia Millia Islamia in celebrating a Centenary Conference on the theme, 'Recent Advances in Biological Sciences'. This conference will provide an opportunity to researchers from across the country to share and exchange knowledge. This will also create an important link between India to promote bilateral collaborations among scientists from different parts of the country.

SUB-TRENDS
 Animal & Plant Interactions
 Molecular Biology and System Interactions
 Microbial Diversity
 Environmental Interactions

DEPARTMENTAL LECTURE
 Jamia Millia Islamia
 Department of Biological Sciences
 Centenary Celebrations
 The annual centenary of Jamia Millia Islamia

WELL-KNOWN PRESENTATION
 All registered participants are encouraged to prepare an oral poster presentation. All those presenters who wish to present their poster should be informed by the 20th February. The poster should be submitted in an MS-Word format of continuous text (font Times New Roman font, single, line spacing and keywords not more than 4).

CELEBRATING DIVERSITY: PLURAL EPISTEMOLOGIES AND LIFEWORLDS

INAUGURAL SESSION

ON 2nd OCTOBER, 2020

in Conversation with

PROF. MOJIB ANJUM

PROF. SHIVATI ALI ZAIDI

Hundred Years of Jamia: Celebrating Diversity

TIME: 11:00 AM

Centenary Year Celebrations
Department of Sociology Lecture Series

Celebrating Diversity:
 Plural Epistemologies and Lifeworlds

Topic
 Celebrating Diversity: Architecture of Plural Lifeworlds

Moderator: Dr. Kulvinder Kaur
Coordinator: Dr. Shareena Banu
Reporteur and Vote of Thanks: Ms. Asmita Dubey

16.10.2020, 4 PM

<https://meet.google.com/pcd-sty-xx>

Speaker: Gauri Bharat
 Gauri Bharat is an author writing on architectural history of everyday life and how architecture, the built environment and urban form of people, she investigates architectural production as material, symbolic, and cultural practice. She has published 'The Power, Place, and Person: Architectural Modernism Through Transient Century India (2018) - Year One 2018-19 leads the Postgraduate Program in Architectural History and Theory in CUPE University, Islamabad.

Events Related to Sustainability, Jamia Millia Islamia

Description:

Total number of sustainability/environment related events in:

2020: 136

2021: 184

2022: 220

A total average per annum over the last 3 years are nearly **180 events** (e.g. conferences, workshops, awareness raising, practical training, lectures, etc.).
