NOTICE

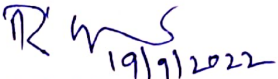

Dated: 19 September, 2022

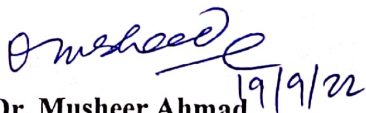

All the students of M.Tech IIIrd Semester are hereby directed to submit their Topic of Seminar (MCEN-392) presentations to the M.Tech Coordinator latest by Friday, 30th September 2022 through the given google form.

Link: https://docs.google.com/forms/d/e/1FAIpQLSd-VtkLc1EBT6XkDRvwORLtzO6Oy-e.-nWUjOLckhOHgBelw/viewform?usp=sf_link

The students have to note the following points regarding Seminar and its evaluation process.

1. You need to deliver multiple presentations in this Semester to score marks in MCEN-392 (Internal Assessment = 30 Marks, External Exam = 20 Marks).
2. Each of the Seminar PPT will be of 20 Marks (for Internal Assessment). The aggregate of all Seminar PPTs will be scaled down for 30 Marks.
3. The Topic for all your Seminar PPTs will remain the same.
4. You need to present further details or insight progressively in your next presentation so that it will be substantially different than the previous one.
5. Implementation or coding is not mandatory. But, if it is essential then necessary code Snippets & Result's Table or Snaps can be shown within the PPT itself.
6. You may consult your Project Supervisor to decide a suitable Topic for the Seminar.
7. The Topic should not overlap with the "Topic of your Project". But, slight overlapping is acceptable.
8. Get approved your PPT slides by your supervisor so that you can have quality presentation, delivery, and technical knowledge.
9. The Seminar Topics should not be same. They are acceptable on first-come first-serve basis.
